

Sponsorship Opportunities

The Bridge Tech wants to partner with your organization to build a better bridge between technology and your future workforce. Technology pushes the limits of creativity and efficiency. When our students walk out the door and into your workplace, they will be able to take an idea and quickly turn it into a working and marketable commodity.

We would love to partner with you and your organization to bring real-world problem solving to our students. As a bonus, you'll be able to work directly with our students, giving you the opportunity to assess their skills and potentially bring them into your workforce.
